## Calling the Comforter

*Kris Bonta*  
*Psychic and Empath*

From the beginning, the ancient civilizations and the Native people of this planet have used dreams and visions to guide them in their lives just as they have honored and sought guidance from their ancestors and teachers who have passed into the Spirit World.

*"We tend to consider that the dead are always with us. The population of our communities at any given time is the sum of those who are living and those who have died. We live comfortably together"*

Chief Noel Starblanket

It is our understanding that at this time, we are preparing to enter into a new world, a kinder, more gentle world and one in which the teachings of the Native people will again become a part our way of life. As we move into this new world, however, a period of chaos is to be expected and many of us are currently experiencing confusion, loss of security, loneliness. and despair. It is in these times that we may look for someone who will truly listen to us and help guide us on our journey. In these times we look for a comforter.

Kris Bonta has been in touch with the Spirit World word since she was a small child and for the past 20 years, has given readings for hundreds of people around the world. She is both a psychic and an empath...this is her gift. And she has the rare gift also, of being available to truly listen to whomever she is speaking with . As the world renown spiritual teacher, Eckhart Tolle has said, the the greatest gift we can give another person is to listen with our complete attention.

Each reading is given with the utmost integrity, sensitivity and respect. Not so much intended as predictions about the future, these readings offer in-depth insights into ways in which we may better deal with the present, understand our friends and families [and this includes pets] more completely and move more easily through difficult times and challenges. The readings offer insight and direction which you are free to act on as you choose; they are not intended to be formal counseling sessions.
